## Work History

|                      |  |
|----------------------|--|
| 2000-10 -<br>2010-10 | <p><b>ASP.NET Programmer, Javascript</b><br/>IEC</p> <ul style="list-style-type: none"> <li>Planned and engineered RESTful web services to manipulate dynamic datasets.</li> <li>Designed, implemented and monitored web pages and sites for continuous improvement.</li> <li>Conceived and built optimized landing pages in HTML and CSS, including [Software] integration and cross-browser compatibility, to support marketing.</li> </ul>  |
| 2010-11 -<br>2011-11 | <p><b>Software Engineer</b><br/>Advantech, Tel Aviv, Israel</p> <p>Responsible for development and maintains of intranet and internet web systems.</p> <p>Portal for Azorim Ltd. Construction, Sharepoint 2010, C#</p> <p>Web Site for Bnei Brak Community: MVC3, HTML 5, MySQL</p> <p>Network Programming Module for Verint Ltd: Rest, Soap, C#</p> <p>Intranet Web Site for Verint Ltd: BPM, ASP.NET 4, LINQ, Design Patterns, Entity Framework</p> <p>BI Module for Osem Ltd: Reporting Services 2008, C#</p> <p>Integration Module between Asp.net web site and CRM system for Herts Car Renting Ltd.</p> <p>Developing WCF Layer for Transport Department : C#:</p>   |
| 2012-01 -<br>2016-01 | <p><b>Software Programmer and Architect</b><br/>IDC Herzliya , Herzliya , Israel</p> <p>Architecting , implementation and programming Team of 2 programmers.</p> <p>Tools- Backend : ASP .NET WEB API</p> <p>Tools: Frontend: AngularJs</p> <p>Tools: Data : SQL server, Sharepoint 2013 REST API, External API</p> <p>Production server: IIS 7, Dot.net framework 4.5</p> <p>Analytics on site: Google Analytics, Outbrain</p> <p>Reporting of hours for tutors and academic staff ( asp.net 4.0, jquery)</p> <p>Scholarship system for students ( asp.net 4.0, jquery)</p> <p>Real time student candidates (asp.net 4.0, jquery mobile)</p>  |
| 2016-01 -<br>Current | <p><b>Software Engineer</b><br/>Silverbyte, Haifa, Israel</p> <p>Client side: Developing main complicated forms of application for Hotel Management. Rich GUI needed to be built. The forms are programmed like collections of components for easy reuse and maintenance.</p> <p>Involved in all stages of development from first planning, to maintenance of the system in production:</p> <p>The stages were included: Design before coding, design of DB structure.</p> <p>Planning and design of client side's models, server side's models, services on server side, specifications between client and server, services and components on client side. Programing all planned structures into software code. Programming server side's unit tests. Big parts of forms were built by angular 1.4 + pure JavaScript. From 2018 ReactJS is using like primary client side's technology.</p> <p>Server side: Developing complicated algorithms for hotel industry. Price management algorithms. Transfer data in real time to different external channels like Booking.com, Airbnb, Expedia and others. Algorithms are coded by C# based on different designed patterns like Strategy, Factory and others. Processes were needed to be very time efficient. Big amount of data is needed to be processed.</p> |

## Education

|                      |   |
|----------------------|---|
| 1994-02 -<br>1997-08 | <p><b>Bachelor of Engineering: Department of Chemical Engineering</b><br/>TECHNION - Israel Institute Of Technology - Haifa</p> |
| 1998-02 -<br>1998-03 | <p><b>Graduated: Software Progtraming</b></p>   |
